

José Soares
SOFTWARE DEVELOPER

Synthesis

Hello, I am José and I'm 22 years old.

I'm a Computer Engineer student at ISEP and I that always wanted to conciliate work and studies to gain experience and knowledge.

I started to work as a Software Developer even before I finished my bachelor's degree and I love to code and develop software for other people's use.

Motivated for success and always attentive to current affairs and new features that can bring improvements to the world.

Work Experience

Software Engineer, Natixis, Porto

FEBRUARY 2023 – PRESENT

A cross-channel monitoring system of financial activities that falls within the context of the Global Oversight System and aims to:

- Provide the ability to monitor the chain in production;
- Providing the capacity to trigger alerts to the support teams informing them of the status of each activity;
- Elaborate on the technical and functional errors of each activity.
